THE

FOUNDRY TRADE JOURNAL

(with which is incorporated THE IRON AND STEEL TRADES JOURNAL)

ESTABLISHED 1902

INDEX TO VOLUME LVIII

January to June, 1938

Head Office:
49, Wellington Street, London, W.C 2

Tech

Index to Volume LVIII

SUBJECT INDEX

A

Aachen Technical High School, Foundry Institute of, 161.
"Abrasives," Slough, Works of, 529.
Accounting, Estimating, Costing and, 367.
Acid Electric-Arc Furnace for Making Steel Castings, 328
Acid Smelting in Blast Furnaces, 468
Activated Carbon, 90.
Air-Raid Shelters, Reinforced-Concrete, 474.
Alloy Steel Castings, Carbon and, 405.
Aluminium at the Empire Exhibition, 420.
Aluminium Casting Alloys, 475.
Aluminium Gaining Ground, 470.
Aluminium in the Foundry, 49.
Aluminium-Silicon Casting Alloys, Heat-Treatable, 485.
American Foundry Industry, 58.
American Notes, 139, 360.
Ancient Iron Castings, Composition and Microstructure of, 244.
Apprentice, Training the Foundry, 345.
Australian Foundry Practice with Special Reference to Vitreous Enamelling, 121, 225.
Automatic-Loom Manufacture, Compressed Air in, 363.

B

Banded Structure in Cast Materials, 306.
Basic-Bessemer Process in Poland, Revival of, 440.
Bearing Metals, Service Life of Tin-Base, 340.
Belgian Foundry Industry, 74.
Blakeborough & Sons, Limited, Brighouse, Foundry of, 509.
Blast Furnace, Model, 434.
Blast Furnaces, Acid Smelting in, 468.
Blast Furnaces, Elliptical, 457.
Blind Scabs, Moulding Sand with Special Reference to, 423, 439.
Borings, Use of Cast-Iron, 437.
Bradley & Foster, Limited, Enamellers' Works Visit to, 243.
Brass, Silicon, 201.
Brasses, Some Physical Factors in Casting High-Strength, 479.
British Cast Iron Research Association, Future of the, 43.
British Industries Fair, Some Castle Bromwich Exhibits, 175.
British Iron and Steel Federation, Annual Dinner of, 259.
British Non-Ferrous Metals Research Association, Annual Report of, 531.
British Standards Institution, Annual Luncheon of, 511.
Broadbent & Sons, Limited, Huddersfield, Foundry of Thomas, 510.
Bronze-Welding of Cast-Iron Pipe, 237.

C

Carbon and Alloy Steel Castings, 405.
Cast-Iron Borings, Use of, 437.
Cast Iron, Copper in, 537.
Cast Iron, Fresh Milestone in the Development of, 419.
Cast Iron, Influence of Manganese on the Hardening and Tempering of, 545.
Cast Iron—Its Production and Use, Corrosion-Resisting, 253, 277.
Cast Iron, Metallurgy of, 135, 165.
Cast Iron Suitable for Vitreous Enamelling, Analysis of, 126, 205.
Cast Iron, White, 441.
Cast Materials, Banded Structure in, 306.
Cast Steel, Copper in, 385.
Casting Alloys, Aluminium, 475.
Casting Defects, Examination of Some, 336.
Casting High-Strength Brasses, Some Physical Factors in, 479.
Casting of Commercial Ingots, Some Aspects of the, 239.
Castings, Carbon and Alloy Steel, 405.
Castings, Composition and Microstructure of Ancient, 244.
Castings for Enamelling, Moulding and Preparation of, 445.
Castings in Grey Iron and Its Alloys, Production of "Pressure-Tight," 233, 287.
Castings, Relief of Internal Stress in, 527, 543.
Castings, Some Aspects of Heavy, 183, 199.
Castings *versus* Forgings, 458.
Cement Moulding, Randupson Process of, 520.
Chilled-Shot Factory, Modern, 529.
Chilled Tappet Castings, Production of, 9.
Chrome Ores in Refractories, 478.
Cleansing Provisions of Factories Act, 457.
Clutch Housings, Alloy Irons for, 226.
Coatings Other than Paint, Protective, 482.
Compressed Air in Automatic-Loom Manufacture, 363.
Continental Notes, 387.
Contraction and Distortion, Design in Relationship to, 115.
Control, Grey-Iron Foundry, 417.
Copper Alloys containing Sulphur, Selenium and Tellurium, 197.
Copper Developments in the Foundry, 50.
Copper in Cast Iron, 537.
Copper in Cast Steel, 385.
Copper Situation, 290.
Core Drying Ovens, 201.

Correspondence:—

Ancient Chinese Castings, 252, 286.
Antiquity of Cast Iron, 134.
Belt Conveyor Speeds, 80.
Calcium Carbonate Inclusions in Moulding Sand, 134, 154.
Contraction of Iron Castings, 154, 174.
Custom of the Trade, 2, 80, 134, 154.
Esperanto, 114, 174.
I.B.F. Golf Competition, 416, 474.
I.B.F.'s Annual Cricket Match, 416, 536.
Is the "Boil" Important? 434, 494.
Modern Methods of Sand Testing, 392, 399.
Moulding Sands, 454.
Some Factors in Sand Testing, 494.
Steelmaking Symposium, 416.
Technical Translations, 80.
Use of Scrap Grinding Wheels as Mould Chills, 154.

Corrosion, Protection of Iron and Steel from, 82.
Corrosion Research, 168.
Corrosion-Resisting Cast Iron—Its Production and Use, 253, 277.
Costing and Accounting, Estimating, 367.
Costing, Foundry, 391.
Crane, Limited, New Laboratories of, 142.
Cupola Control in a Danish Foundry, Poumay, 404.
Cupola Practice, 97.
Czecho-Slovakian Foundry Industry in 1937, 63.
Czecho-Slovakian Foundrymen's Association, 542.

D

Danish Foundry, Poumay Cupola Control in a, 404.
Dates and Data, 42.
Design in Relationship to Contraction and Distortion, 115.
Desulphurising in the Blast Furnace, 182.
Die-Casting Industry, 37.
Die-Casting Machine, Fully-Automatic Pressure, 544.
Dryer, New Portable Mould, 548.
Dust Collection, 526.

E

Electric Furnace for Jarrow, Large, 274.
Electric Furnace for Research, New, 273.
Electrically-Melted High-Duty Iron, 103.
Electrodes, Carbon and Graphite, 544.
Empire Exhibition at Glasgow, 380.
Enamelling Industry, Institute of Vitreous Enamellers and the, 28.
Enamelling Industry, Optical Aids to the, 16.
Enamelling, Moulding and Preparation of Castings for, 445.
Enamelling News, 300.
Enamelling Properties of Cast Iron, Relation of Microstructure to the, 446.
Engineering Congress at Glasgow, 536.
Estimating, Costing and Accounting, 367.

F

Facings with Reference to Vitreous Enamelling, Moulding Sands and, 297.
Factories Act—
Hours of Employment Provisions, 421.
How It Affects the Foundry Industry, 343.
Safety Provisions, 362.
Some Miscellaneous Provisions, 443.
Special Regulations Relating to Safety, 392, 403.
Fairbairn Lawson Combe Barbour, Limited, Leeds, Foundry of, 512.
Feeders and Runners for Malleable-Iron Castings, 164.
Feeding of Castings with Special Reference to the Steam-Pressure Method, 195.
Fettling Shop, Equipping of a, 255, 324.
Fluidity, This, 7.
Forgings, Castings *versus*, 458.
Foundry Costing, 391.
Foundry Equipment and Supplies Trade, 39.
Foundry Extension, All-Welded, 440.
Foundry Industry Month by Month, 47.
Foundry Mechanisation, 31, 388.
Foundry Practice, Some Points on Non-Ferrous, 271, 291, 313.
Foundry Trades' Equipment and Supplies Association, Annual Meeting, 246.
Fowler & Company (Leeds), Limited, Foundry of John, 513.
French Foundry Conference, 416.
French Foundry Industry, Developments in the, 59.
Furnace, Britain's Largest Oil-Fired Rotary Melting, 530.
Furnace for Jarrow, Large Electric, 274.
Furnace for Making Steel Castings, Acid Electric-Arc, 328.

G

German Foundry Industry, 61, 270.
Grey Iron and Its Alloys, Production of "Pressure-Tight" Castings in, 233, 287.
Grey-Iron Castings, Survey of Moulding Methods for Producing Repetition, 400.
Grey-Iron Foundry Control, 417.
Grey-Iron Foundry Industry, Trade Conditions in, 25.
Grinding Machine, Metal Band, 85.

H

Hardening and Tempering of Cast Iron, Influence of Manganese on the, 545.
Harper (Mechanite), Limited, Works of John, 163.

670.5 v.58

Heat-Resistance Demonstration Unit, 2.
Heat-Treatable Aluminium-Silicon Casting Alloys, 485.
Hepworth & Grandage, Limited, Bradford, Foundry of, 514.
High-Frequency Furnace, Refining Steel in the, 106.
High-Strength Brasses, Some Physical Factors in Casting, 479.
Honours List, Birthday, 490.
Hopkinsons, Limited, Huddersfield, Foundries of, 517.
Hours of Employment, 114.

I

Import Duties on Iron and Steel, Reversion to Previous Rates, 264.
Income-Tax Assessment Procedure, 254.
Ingot Moulds, Life of, 293, 317.
Ingot, Moulds, Non-Ferrous, 262.
Ingots, Some Aspects of the Casting of Commercial, 239.

Institute of British Foundrymen:—

Annual Conference at Bradford, 495.
Banquet at Bradford, Annual, 507.
Birmingham Branch Annual Dinner, 138.
Birmingham Branch Annual Meeting, 361.
Bradford Conference Programme, 342, 344.
Conference Visits to West Yorkshire Foundries, 509.
East Midlands Branch Annual Dinner, 218.
East Midlands Branch Annual Meeting, 361.
Election of New Members, 96, 324.
Golf Competition at Matlock, 438.
Lancashire Branch Annual Dinner, 162.
Lancashire Branch Annual Meeting, 422.
London Branch Annual Meeting, 354.
London Branch Visit to West Country, 420.
Scottish Branch Annual Dinner, 8.
Sheffield Branch Annual Meeting, 361.
Surtees Memorial Awards, 232.
West Riding of Yorkshire Branch Annual Dinner, 89.
West Riding of Yorkshire Branch Annual Meeting, 402.
Work of the Institute of British Foundrymen, 29.

Institute of Metals, Annual Meeting in London, 217.
Institution of Works Managers, 180.
International Foundry Congress, 194.
Iron and Steel Industry, Expansion in the, 48.
Iron and Steel Institute, Annual Meeting of, 290, 381.
Iron and Steel Institute, Autumn Meeting in New York, 273.
Iron Castings, Composition and Microstructure of Ancient, 244.
Iron Castings, Production of Some Intricately-Cored, 6.
Iron-Chromium-Manganese Alloys, 360.
Iron, Eectrically-Melted High-Duty, 103.
Italian Foundry Industry, 70.

J

Jarrow Metal Industries, Limited, Opening of, 435.
Jarrow Tube Works, Limited, Opening of, 435.

K

Kent, Limited, Centenary of George, 541.

L

Lead in Foundry Practice, 52.

Leaders:—

Antiquity of Cast Iron, 113.
Assessing the Business Position, 213.
B.C.I.R.A. Scheme, 379.
Bismuth in Foundry Practice, 415.
Bradford Conference, 359, 493.
British and German Foundry Statistics, 305.
British Foundry Progress, 453.
British Standard Specifications for Grey Iron, 213.
Business Prospects for 1938, 79.
Coal and Oil, 173.
Continental Research Work, 305.
Cost of Tenders, 193.
Cupola Blast Pressures, 415.
Customs of the Trade, 269.
Difficulties of Definition, 251.
Editorial Publicity, 1.
Esperanto and Technology, 173.
"F.C.I.R.A.," 473.
Flexible System, 285.
Government Expenditure Praised, 133.
Graphite, 153.
International Commission on Methods of Testing Cast Iron, 323.
International Engineering Congress, 535.
Metallurgical Anschluss, 231.
Metallurgical Nursery, 95, 113.
More about Wear, 193.
Old and New, 359.
Physics and Chemistry in Metallurgy, 231.
Pig-Iron Duties, 397.
Proceedings, 285.
Profitable Co-operation, 153.
Reclamation of Cast-Iron Borings, 433.
Review of the Foundry Industry in 1937, 23.
Rolling White Cast Iron, 341.
Routine and Other Tests, 251.
Sporting Events, 341.
Steelmaking Symposium, 379.
Theory of Foundry Mechanisation, 397.
Three Fields, 133.
Tower of Babel, 1, 79.
Transverse Test, 433.
Vanadium from Cupola Slags, 95.
Welding Cast Iron and Steel, 269.

Life of Ingot Moulds, 293, 317.
Light-Castings Industries, Patternmaking for the, 275.
Light Castings Industry, 46.
Light Castings Industry Adopt Holidays with Pay, 450.
Lister & Company, Limited, New Mechanised Foundry of R. A., 348.
Loam Moulding of a Hydraulic Ram, 11.

M

Machine-Cast Iron, 178, 223.
Magnesium and Its Alloys, Surface Protection of, 533.
Malleable Castings Industry, 27.
Malleable-Iron Castings, Feeders and Runners for, 164.
Manganese on the Hardening and Tempering of Cast Iron, Influence of, 545.
Marine Engineering, Cast Iron in, 86.
Marine Engineering Foundrywork, 35.
Mechanisation, Foundry, 31, 388.
Mechanised Foundry of R. A. Lister & Company, Limited, New, 348.
Meehanite Metal Research Institute, International, 457.
Melting of Cast Iron in the Foundry, 219.
Melting Practice, Novel Development in, 235.
Metallurgy, A Chemist's View of, 215.
Metallurgy of Cast Iron, 135, 165.
Metals, Outlook for Base, 214.
Metals, Speculation in, 138.
Microscope, Use of the, 88.
Microstructure to the Enamelling Properties of Cast Iron, Relation of, 446.
Midland Coke Research Committee, 252.
Midland Ironfounders' Association, First Annual Dinner, 398.
Modern Foundries, Limited, Halifax, Foundry of, 518.
Molten Steel, Temperature Measurement of, 366.
Motion Study in the Foundry, Time and, 87, 101, 118, 140, 159.
Motor-Vehicle Foundry Industry, 40.
Mould Dryer, New Portable, 548.
Moulding a Motor Spider, 236.
Moulding and Preparation of Castings for Enamelling, 445.
Moulding Methods for Producing Repetition Grey-Iron Castings, Survey of, 400.
Moulding, Patternmaking and, 181.
Moulding, Randupson Process of Cement, 520.
Moulding Sand, with Special Reference to Blind Scabs, 423, 439.
Moulding Sands and Facings with Reference to Vitreous Enamelling, 297.
Moulds, Life of Ingot, 293, 317.
Moulds, Non-Ferrous Ingot, 262.

N

National Physical Laboratory, Annual Report of, 286.
New Zealand Iron and Steel Industry, 250.
Newport Metallurgical Society, 194.
Nickel in Ferrous and Non-Ferrous Foundry Practice, 53.
Nickel-Silver for Foundry Purposes, Casting of, 155.
Nickel-Silver, Lead in Cast, 186.
Nickel-Steel Castings, Recent Progress in, 3.
Nitrided Sintered Iron, 90.
Non-Destructive Testing, 258.
Non-Ferrous Castings, Runners and Risers for, 83.
Non-Ferrous Foundry Practice, Recent Developments in, 33.
Non-Ferrous Foundry Practice, Some Points on, 271, 291, 313.
Non-Ferrous Ingot Moulds, 262.
Non-Ferrous Metal Markets in 1937, 41.
Non-Ferrous Metals, Research and Development Work in the Field of, 49.
Notched-Bar Impact Testing, 264.

O

Oil-Fired Rotary Melting Furnace, Britain's Largest, 530.
Opacifiers for Vitreous Enamels, 15.
Open-Hearth Charging, Improved, 270.
Optical Aids to the Enamelling Industry, 16.

P

Patternmaking and Moulding, 181.
Patternmaking for the Light-Castings Industries, 275.
Patternmaking in Relation to the Foundry, 333.
Patternmaking, Plywood for, 542.
Patternmaking, Use of Plywood for, 346.
Pig-Iron and Steel Production, 82.
Pig-Iron Duty Reimposed, 402.
Pig-Iron Industry, 30.
Pipe, Bronze-Welding of Cast-Iron, 237.
Pipe Templets or Closures, Production of Flange, 99.
Pipes, Improving the Quality of Soil, 399.
Plywood for Patternmaking, 542.
Plywood for Patternmaking, Use of, 346.
Poland, Revival of Basic-Bessemer Process in, 440.
Polish Foundry Industry and the 1938 International Foundry Congress, 65.
Poumay Cupola Control in a Danish Foundry, 404.
"Pressure-Tight" Castings in Grey Iron and Its Alloys, Production of, 233, 287.
Prince-Smith and Stells, Limited, Keighley, Foundry of, 519.
Protective Coatings other than Paint, 482.

R

Radiant Tubular-Element System of Heating as Applied to the Vitreous-Enamelling Industry, 202, 370.
Ram, Loam Moulding of a Hydraulic, 11.
Randupson Process of Cement Moulding, 520.
Refractories Association of Great Britain, 412.
Refractories, Chrome Ores in, 478.
Refractories for Use in Open Hearths, 194.
Refractories Industry, 38.
Refractories, Newer, 208.
Relief of Internal Stress in Castings, 527, 543.
Repetition Grey-Iron Castings, Survey of Moulding Methods for Producing, 400.
Roll, World's Heaviest Cast-Steel, 90.
Rollers, Centrifugal Casting of Grooved, 214.
Rotary Melting Furnace, Britain's Largest Oil-Fired, 530.
Runners and Risers for Non-Ferrous Castings, 83.
Russian Foundry Industry, 67.
Ruston & Hornsby, Limited, Lincoln, Foundry of, 461.

S

Sand, Sidelight on, 221.
Sand Testing, Some Factors in, 455, 483.
Sands, Synthetic Moulding, 86.
Sand Testing, Modern Methods of, 329, 365.
Sand with Special Reference to Blind Scabs, Moulding, 423, 439.
Sands, Testing of Moulding, 81.
Scrap Trade, Foundry, 48.
Screenarator, 139.
Silica Brick in Canada, Manufacture of, 414.
Smelting in Blast Furnaces, Acid, 468.
Snagging Equipment, High-Speed, 144.
Soil Pipes, Improving the Quality of, 399.
South African Foundry Industry, 72.
Spelter Lags Behind, 374.
Spelter Prospects, 2.
Spraying, Some Points Relative to, 372.
Steel Castings, Acid Electric-Arc Furnace for Making, 328.
Steel Castings, Carbon and Alloy, 405.
Steel Castings, Production and Properties of, 145.
Steel Castings, Recent Progress in Nickel, 3.
Steel, Copper in Cast, 385.
Steel Foundry Industry, 26.

DETROIT PUBLIC LIBRARY
DETROIT MICH.

Steel Foundry Practice, Improving, 309.
Steel-Mix Irons, 10.
Steel Output by Processes, World, 5.
Steel, Temperature Measurement of Molten, 366.
Stress in Castings, Relief of Internal, 527, 543.

T

Tappet Castings, Production of Chilled, 9.
Temperature Measurement of Molten Steel, 366.
Tempering of Cast Iron, Influence of Manganese on the Hardening and, 545.
Testing, Joint Committee on Materials and Their, 428.
Testing, Non-Destructive, 258.
Time and Motion Study in the Foundry, 87, 101, 118, 140, 159.
Tin-Base Bearing Metals, Service Life of, 340.
Tin Industry, 56.
Training the Foundry Apprentice, 345.
Transfers for Vitreous Enamelling and Their Application, 295, 444.
Tubular-Element System of Heating as Applied to the Vitreous Enamelling Industry, Radiant, 202, 370.

U

United States Output of Pig-Iron and Ferro-Alloys in 1937, 366.

V

Vanadium from Cupola Slags, Recovery of, 108.
Vitreous Enamelling, Analysis of Cast Iron Suitable for, 126, 205.
Vitreous Enamelling Industry, Radiant Tubular-Element System of Heating as Applied to the, 202, 370.
Vitreous Enamelling, Moulding Sands and Facings with Reference to, 297.
Vitreous Enamels on Glass, Firing of, 14.
